

My name is **Anandababu**  
I'm working as a  
Software Engineer at Informatica

 If you attend every class conducted by Ullas and work hard in your studies ... then you can achieve great things in life!

**Father's Occupation:**  
Business

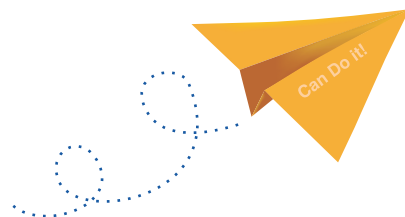

**College that I passed out from:** Anna University

**The School that I passed out from:** SRM Higher Secondary School, Ambattur

**My Dream:** To get the highest paid job in Microsoft

**My favorite weekend class:** C++ and Ms Office Class

**What I learnt from Ullas:**  
How to face challenges without fear

## Mentor Magic ...

I joined Ullas in 2004 when I was in my 10th standard. I passed out of SRM Higher Secondary School. I scored 94% in my 10th standard and 93% in my 12th standard with the help of Ullas mentors.

I was given the opportunity to teach other students and that gave me a lot of confidence. I even trained a batch of students for CTS. The computer practical classes helped me the most. My mentor Sathish taught me a lot about computers.

The Workshop on 'Self Confidence' in 2004 was very informative and helpful. Every student who is lucky to have Ullas as their mentor must attend all weekend classes, learn and apply these learnings in real life.
