

My name is **Devadayalan A**
I'm working in
L&T as an Electrical Engineer

I feared speaking in public; thanks to Ullas I overcame that and faced my job interview with confidence. I was the first person to be selected for L&T from my college

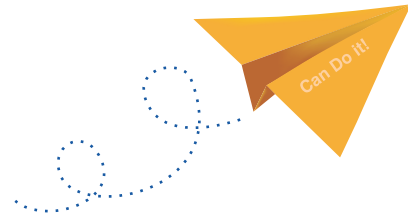

College that I passed out from: Central Polytech College

The school that I passed out from: Government Boys Higher Secondary School, Chrompet

My Dream: To become an Aeronautical Engineer

My favourite weekend class: Personality Development Class

What I learnt from Ullas: Confidence to face my interviews and Group Discussions.

Dream big with Ullas...

I have been under the Ullas wing since 2003. I got into the Central Polymer College and completed my Electrical Engineering and got recruited from Campus into L&T. Ullas has helped me financially and gave me the required guidance to build my career. The Mentors and Polaris seniors motivated us and told us about the corporate life.

Ullas gave me the support and attention and helped me pursue my dream to study and become something in life. I gained a lot of confidence from Ullas and was well prepared for my interviews & Group Discussions. I was the first to get selected for L&T from my college. Thank you Ullas!
