My name is **Devaki**
I'm working in Polaris Software Labs in the Testing Team

Ullas taught me how to become positive and inspired me to follow my dreams.

Father's Occupation: Driver

College that I passed out from: MNM Jain College

The school that I passed out from: Little Flower Matriculation Higher Secondary School, Ashok Pillar
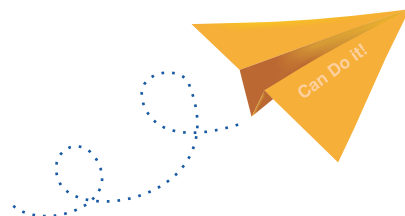

My Dream: To become a great Programmer

My favourite weekend classes: Computer and personality development class conducted by Samuel Sir

What I learnt from Ullas: To present myself in society more confidently

Magic at Ullas …

I came to Ullas when I was in my 11th standard and I had a dream to become a great programmer. I studied well and scored 91% in 10th standard and 95% in 12th standard. My friends at Ullas motivated me to work hard and pursue my dreams. I got into MNM Jain College and studied Computer Science Engineering.

Along with academics I also learnt that personality development skills are very important to become a better person. I learnt many things from my mentors like communication skills, time management, how to overcome fear etc.
